Network Frontier Workshop

The Network Frontier
Workshop 2017

is a two-day virtual conference highlighting current research on network dynamics. Presentations will emphasize physical principles underlying synchronization and symmetry in network dynamics, as well as network problems in biological, ecological, social, and physical systems.

Registration deadline:

**December 5, 2017 at
4 PM CST (GMT-6)**

<http://netfrontier.northwestern.edu>

Researchers from underrepresented groups are strongly encouraged to participate.

Organizing Board: Deniz Eroglu, Zachary Nicolaou, Daniel Rey, Thomas Wytock
Scientific Advisor: Adilson E. Motter
Administrative Assistant: Erisa Apantaku
